OBJECTIVES

Adaptable IT graduate seeking a front-end developer role to build flawless, responsive user experiences. I specialize in turning complex wireframes into high-performance web applications using Vue.js. Currently, I am expanding my skills into Laravel to strengthen my full-stack architectural knowledge. My goal is to bridge the gap between creative UI design and robust data management to deliver immediate value to your development team.

SKILLS

- | | |
|--|--|
| <ul style="list-style-type: none">● Web Frameworks:
Vue.js, Laravel,
Tailwind CSS● Core Languages:
JavaScript, PHP,
HTML5, CSS3● UI/UX Engineering: Figma,
Wireframing, User Research | <ul style="list-style-type: none">● Developer Tools: Git, GitHub,
VS Code● System Engineering: PC
Hardware Assembly &
